Grand Lakes MUD 2 tax for 2024 – Wakileh – 6819 Rosemont Park Ln, Katy, TX 77494-6590

As the tax collector Grand Lakes Municipal Utility District No. 2, Wheeler & Associates shows the account 3532070010160914 (6819 Rosemont Park Ln, Katy, TX 77494-6590) with a delinquent 2024 balance of \$452.94 (\$423.31 + \$29.63 in interest). Since late January 2025, Wheeler & Associates received a payment for \$195.46. It is your problem that you chose to not cash it. With the \$195.46 transfer I had a very clear message that a payment of \$195.46 (169/366 x \$423.31) is made because Grand Lakes MUD No. 2 disconnected the water meter at the property “6819 Rosemont Park Ln, Katy, TX 77494” since June 18, 2024. Thus, the property had water for 169 days out of 366 days in 2024. Without water, the MUD will not receive a penny in taxes beyond the \$195.46 made for 2024. The MUD can take the matter to court and we will challenge in return.

Disconnecting the water meter was coordinated between two corrupt, lawless, disgraceful rats: [Christopher Todd Skinner](#), the MUD's attorney at Houston-based law firm Schwartz Page Harding LLP (SPH), and [Charlie Chapline](#) of the water company [Municipal District Services](#). The MUD's corrupt board members (Michael Christopher McClusky, J. Scot Vann, Gregory Jay Henry, Bradley Allen Baker, and William Butler) are aware of the case as they have assisted Skinner with the evil scheme. The [Minutes](#) for the MUD's Board Meeting of July 15, 2024 show that Skinner orchestrated against the undersigned two fraudulent civil penalties, \$200 each for a total of \$400. Bradley Allen Baker moved to impose the penalties and Gregory Jay Henry seconded the motion, which unanimously carried. But who are those people? They are five corrupt, lawless, immoral, unethical, compromised, bribed board members, who for years have acted as puppets to the despicable Skinner; a rat and one of the most corrupt people on earth.

Skinner has by now put Grand Lakes Municipal Utility District No. 2 in indefinite litigation (case no. D-1-GN-24-006054 before the Travis County 201st District Court and case no. D-1-GN-24-010136 before the Travis County 345th District Court). Through tampering and deception, Skinner hired Austin-based law firm of [Lloyd Gosselink Rochelle & Townsend \(LGRT\)](#) to follow the two cases. The two corrupt law firms have since July 2024 invoiced the MUD \$320,899: \$152,362 (SPH) | \$168,537 (LGRT).

Let us see how much legal fees Skinner and the MUD's five board members will make the MUD's ratepayers pay to pursue this matter in court.
